

## Policy Exclusions

The following are not covered by this policy:

- Tires damaged due to improper inflation, over loading, accident, misapplication, misuse, fire and vandalism.
- Tires used off road for racing, or showing signs of deliberate abuse.
- Loss of property other than the tire itself.
- Consequential damages such as but not limited to: rims, tire pressure sensor, etc...

## Your Responsibilities

- When replacement tire is received, owner must pay the difference between the selling price and the amount of credit received for the damaged tire. Any applicable taxes and/or additional services ordered must be paid separately.
- Any difference in tire prices due to replacement of damaged tire with a more expensive product must be paid by the client.
- Any tire surrendered for credit will become the property of AutoNiche.

## Miscellaneous

A comparable tire may be the same brand and type or in the event the tire is no longer available to AutoNiche, a tire of the same basic construction will be substituted.

A tire protection policy may be purchased for any replacement tire at a cost based upon the tire's current retail selling price.

# TIRE PROTECTION PLAN

**auto** *Niche*

8 Laidlaw Blvd  
Unit 4  
Markham

# Protect your tire investment against potholes, nails etc.

Tire manufacturers have diminished or discontinued their “Road Hazard Warranty” against failures.

In order to serve our clients better AutoNiche offers this hassle free Tire Protection Policy to take away the financial burden of unexpected tire repairs. This policy is optional and can be purchased for any new tire on a vehicle serviced by AutoNiche.

## Coverage if tire fails due to a road hazard:

Includes:

- FREE\* flat repairs
- Pro-rated replacement if tire cannot be repaired
- FREE\* remounting and rebalancing of the repair or replaced tire
- No charge tire rotations every 10,000km with the purchase of 4 tires

## Details of Coverage

- Any cut, impact or penetration on a tire which is deemed repairable by AutoNiche will be repaired, re-mounted (when applicable), and rebalanced by AutoNiche at no cost to the client.
- Any cut, impact or penetration on a tire which is deemed un-repairable by AutoNiche will be replaced on a pro-rata basis, with a comparable tire (see “Miscellaneous”). No charge for mounting and balancing.

Amount of credit due to the client is derived from multiplying the current AutoNiche retail price by the percentage of usable tread wear remaining at the time of adjustment.

EXAMPLE: A tire with the original tread depth of 11/32” has a usable tread depth of 9/32”.

(Note: tires are considered worn out at 2/32”. Tread wear indicators start to show).

A tire returned with 7/32” remaining tread (5/32” usable) would receive a 57% credit on a new tire equivalent.

- Coverage ends when the tire is replaced or worn out (2/32” or less of tread remaining at any point on the tire).
- Policy is not transferred to replacement tires.

\* Service surcharge is applicable on some truck and performance tires including (but not limited to) any tire with a rim diameter of 18” or larger, and any tire with an aspect ratio of 55 or less. Please ask the shop for details.
